

UCC eZFILE®

We named it eZFILE for a reason!

There is more to filing a UCC than completing the form. Managing jurisdictional requirements, calculating fees, writing checks, ensuring completed acknowledgments are returned and tracking expiration dates are just a few of the many steps that UCC filers deal with every day.

Imagine if you were able to free up staff time required to process and track UCC Filings. Imagine if the correct UCC form was always at your fingertips and rejected filings were a thing of the past. How much time and money could you save if your UCC filings were submitted electronically to 38 states?

Could an automated UCC filing system make managing your UCC filing easier? Only if it is UCC eZFILE®! A system that is so intuitive and easy to use there was only one name we could give it, UCC eZFile®.

“I just finished 110 UCC filings tonight and I wanted to say I love UCC eZFILE.”

Major California Bank

Feature	Benefit
Easy to Use Interface	If you can fill out a paper UCC form, you already know how to use the UCC eZFILE® system. Simply fill out our electronic UCC form in a single screen format. Only one screen to review! Filing can be reviewed on the same screen that data entry occurs.
Personal Library	Reduce repetitive typing by creating personal libraries of Debtor, Secured Party names and Collateral Descriptions. Prevent non approved collateral descriptions or keying errors on your filings when the personal library is used. Save information to your personal library when it is convenient! Customized personal library information can be entered, before, during or after a filing has been completed.
eFiling	Reduce filing costs in 38 states when you take advantage of eFiling. eFiling saves you over 50% in service fees and reduces jurisdictional fees, saving you money. Eliminate indexing errors that often occur when you file over the counter in jurisdictions. File faster - receive acknowledgement copies in hours, not days.
eZTemplate™	Create a template once and use it to create copies of similar filings that can be modified to meet your needs for each situation.
Filing Review	Online does not mean alone! Our UCC filing experts review your filing for errors and omissions to alleviate delays in filing. Only CLAS takes the added step of verifying debtor names on UCC Filings with state online data and advises you of discrepancies.
UCC-3's	Our filing solution gives you the ability to file a UCC-3 without keying UCC-1 data.
eZReports™	Create Customized reports on the fly or use one of the many report formats we already have built in. Export your reports to a Spreadsheet so you can easily and quickly manipulate the data to meet your needs. Gather important information about your filing portfolio when you need it.
eZAlert™	Our continuation notice system has a built in "safety net." Two e-mail addresses can be notified of filings requiring UCC-3 Continuation Statements .
