

UCC eZFILE[®]

We named it eZFILE for a reason!

There is more to filing a UCC than completing the form. Managing jurisdictional requirements, calculating fees, writing checks, ensuring completed acknowledgments are returned and tracking expiration dates are just a few of the many steps that UCC filers deal with every day.

Imagine if you were able to free up staff time required to process and track UCC Filings. Imagine if the correct UCC form was always at your fingertips and rejected filings were a thing of the past. How much time and money could you save if your UCC filings were submitted electronically to 40 states?

Could an automated UCC filing system make managing your UCC filing easier? Only if it is UCC eZFILE[®]! A system that is so intuitive and easy to use there was only one name we could give it, UCC eZFile[®].

“I just finished 110 UCC filings tonight and I wanted to say I love UCC eZFILE.”

Credit Officer
Major California Bank

Feature	Benefit
Easy to Use Interface	Data entry screens appear as a UCC form. If you can fill out a paper UCC form, you already know how to use UCC eZFILE [®] .
Personal Library	Reduce repetitive typing by creating personal libraries of Debtor, Secured Party names and Collateral Descriptions.
Expanded e-Filing	Just when you thought we couldn't possibly add any more jurisdictions, we did it again! Our extensive e-filing network covers 40 jurisdictions with the following benefits: <ul style="list-style-type: none"> • Prevent indexing errors at the state and avoids 'seriously misleading' filings • Receive acknowledgements faster • Saves time! Results are often available before you can even move the file • Reduced fees save you and your clients money
Reduce Attachments	e-Filing not an option because of attachments? Utilize the massive collateral description field to eliminate attachment pages to make e-filing possible. Suddenly you can cut costs, not cut trees, and be more green.
Dynamic e-Filing form	How often have you filed a document electronically only to find information was purged from the acknowledgement? With UCC eZFILE [®] , Never! Our dynamic filing form intuitively disables non-indexed fields. This allows you to determine if e-filing will meet your needs before you file.
Collateral Wizard™	Don't want your collateral descriptions to get separated into sentence fragments? Only CLAS offers a Collateral Wizard to allow you to manipulate the way your collateral text will print.
eZTemplate™	Create a template once and use it to create copies of similar filings that can be customized to meet your needs for each situation.
Filing Review	In addition to our automated validation system, UCC eZFILE [®] uses our inhouse filing experts to review your filing to alleviate filing delays. An automated system is good, but human review is even better, and we offer both.
eZReports™	Create customized reports instantly or use one of our report formats. Reports can be exported easily to a spreadsheet to allow you to manipulate the data to meet your needs.
eZAlert™	Our continuation notice system has a built in "safety net". Two e-mail addresses can be alerted when a filings requires a UCC-3 continuation statement.
